ORGANIC FERTILIZER NP 3.5 + 14C

- 25 kg bag on 1.625 kg pallets - BIG BAGS 500 kg - LOAD
- It supplies organic nitrogen and phosphorus with gradual release
- Contains macro and microelements in an assimilable form from plants
- Ideal for all terrains
- Rich in amino acids and proteins

DOSES AND METHOD OF EMPLOYMENT

CULTURE	DOSES
Vine from wine - Table vine	1100 - 1300 kg/ha
Fruit	800 - 1300 kg/ha
Kiwi	1300 kg/ha
Vegetables	800 - 1300 kg/ha
Greenhouse	5000 kg/ha

ALLOWED IN BIOLOGICAL AGRICULTURE

FEATURES

ABOMIN PRO is an organic NP fertilizer based on hydrolyzed and abomin meat flours, with specific characteristics. Thanks, in fact, to the integration of the two components, **ABOMIN PRO** provides a pool of meso and microelements available for the plant. The combined presence of amino acids and proteins of animal origin, favors the availability of the elements contained in abomin that otherwise would remain insoluble in the soil.

ABOMIN PRO is particularly indicated in the fertilization of horticultural crops both in greenhouses and in full field, ornamental plants, fruit crops and vineyards.

ABOMIN PRO promotes the maintenance of soil fertility and guarantees an important supply of amino acids and growth factors on the ground.

COMPOSITION

Organic Nitrogen (N)	3%
Total phosphorus pentoxide (P2O2)	5%
Organic carbon (C) of biological origin	14%
Organic substance	24%
Maximum humidity	12%
Raw materials: Abomin, meat and bone meal, hydrolyzed leather and skins, dried cattle manure, dried pollen	

The product must not be put in contact with the roots of the plant. Product for professional use only. Keep out of reach of children and animals.

Keep in a dry and sheltered place
